

Community Survey

As a school we've been on a Professional Development journey to grow our teaching practice to ensure we foster cultural relationships with all of our learners. As part of our learning, we require feedback from a range of sources: parents/whānau, students and staff. Your children will be completing the survey at school if they are in Year 4-8.

Rongohia te Hau is a survey that was developed to better understand the experiences of young people in Aotearoa New Zealand. The data gathered provides valuable insights into the challenges and opportunities that young people are facing in today's society. By participating in this survey, we all have the opportunity to share our thoughts and experiences on a wide range of topics, including mental health, education and relationships.

The survey is multi-choice, with only one optional box to leave further comments and takes no more than 5 minutes. All responses are completely anonymous. We'd love to hear from as many whānau as possible so please spare us a few minutes. Here is the [survey link](#) or if you require access to a device we will have some set up at the office for you to use.

Once you've completed the survey, please email a screenshot or photo of the 'survey submitted' page to Geraldine (admin@hautapu.school.nz) to go into the draw to win a \$100 grocery voucher.
